

A technician with a beard and glasses, wearing a blue long-sleeved shirt and dark trousers, is working on a large blue industrial machine. He is focused on a grey electrical control box mounted on the machine, with his hands inside it. The machine has various hoses, pipes, and mechanical components. Below the control box, there are yellow-painted mechanical parts and a metal arm with a hydraulic cylinder. The background shows more of the machine and some structural elements of the facility.

Machine Distribution, Installation & Maintenance

About us

Your partner in innovative machinery

Driven by Value Creating Technology.

The Valtech Group is a global leader in machine building, powered by a network of independent companies.

With over 450 skilled and motivated employees, we deliver state-of-the-art solutions across various industries, turning expertise into innovative projects worldwide.

Your local distributor and service provider

Innovative machinery for local excellence

Valvan Soenen India Pvt Ltd., based in Khopoli, Mumbai, connects the innovative technology of our Belgian parent companies with the needs of the Indian market.

As a local distributor and service provider, we combine regional expertise with the Valtech Group's international standards to deliver tailored machinery solutions across Asia.

Our services

End-to-end installation & maintenance

At your service, every step of the way

Valvan Soenen India offers end-to-end support, from precision installations to tailored maintenance programs. Our experienced technicians provide:

- Site preparation, system integration, and performance testing for optimized setup.
- Routine inspections and preventive maintenance to enhance equipment life.
- Rapid, on-demand repairs through our local team, minimizing downtime and ensuring seamless operations.
- Locally supplied spare parts to ensure cost and time efficiency, with some standard spare parts kept in stock in India.
